The leading classroom management software tool for schools, MAT's and school districts.

ABtutor

ABTUTOR.COM

About Us

For the last 20 years, our software has been used in over 60 countries across the world.

Since 2000 we've been proud to provide teachers, network managers, administrators, and trainers worldwide with affordable and intuitive classroom management software solutions.

As early pioneers in the industry, we've successfully serviced 5000 customers in over 60 countries.

Three main principles have underpinned the development of AB Tutor:

- Affordability & value for money
- Simplicity & transparency
- Real improvement in classroom practice

Client Reviews

"We find it an extremely useful product which we have consistently used since we first purchased it - not something I can say with confidence about all our software! It assists with demonstrations, administration and student-focus and as you know, we are now looking into whether we can use it with our KS2 laptops. I feel it helps to raise teachers' confidence levels, assists with E-Safety incidents and saves money due to the power management option. I wouldn't be without it!"

Stephen Lehrer, Bristol-Warren Regional School District

"AB Tutor is a product with great functionality that does exactly what you want it to do. Easy to use, it has become an invaluable tool for use within our school. The ability to switch on and log on all the PC's in a suite and connect them to an application or website prior to the lesson means the whole lesson can be spent learning. This has been a real hit with the teaching staff."

Craig Williams, Sandy Lane Primary School

Client Reviews

"I have been using the AB Tutor control in our main computer lab and just given the first staff in-service. All 50 staff who use the lab were blown away with the program, especially those teachers who teach the younger grades."

Simon Small, Edge Hill State School

"Keep up the great work, I don't know how we ever did without this software. It really is a credit to you. We haven't found anything else close to the speed and functionality of this software."
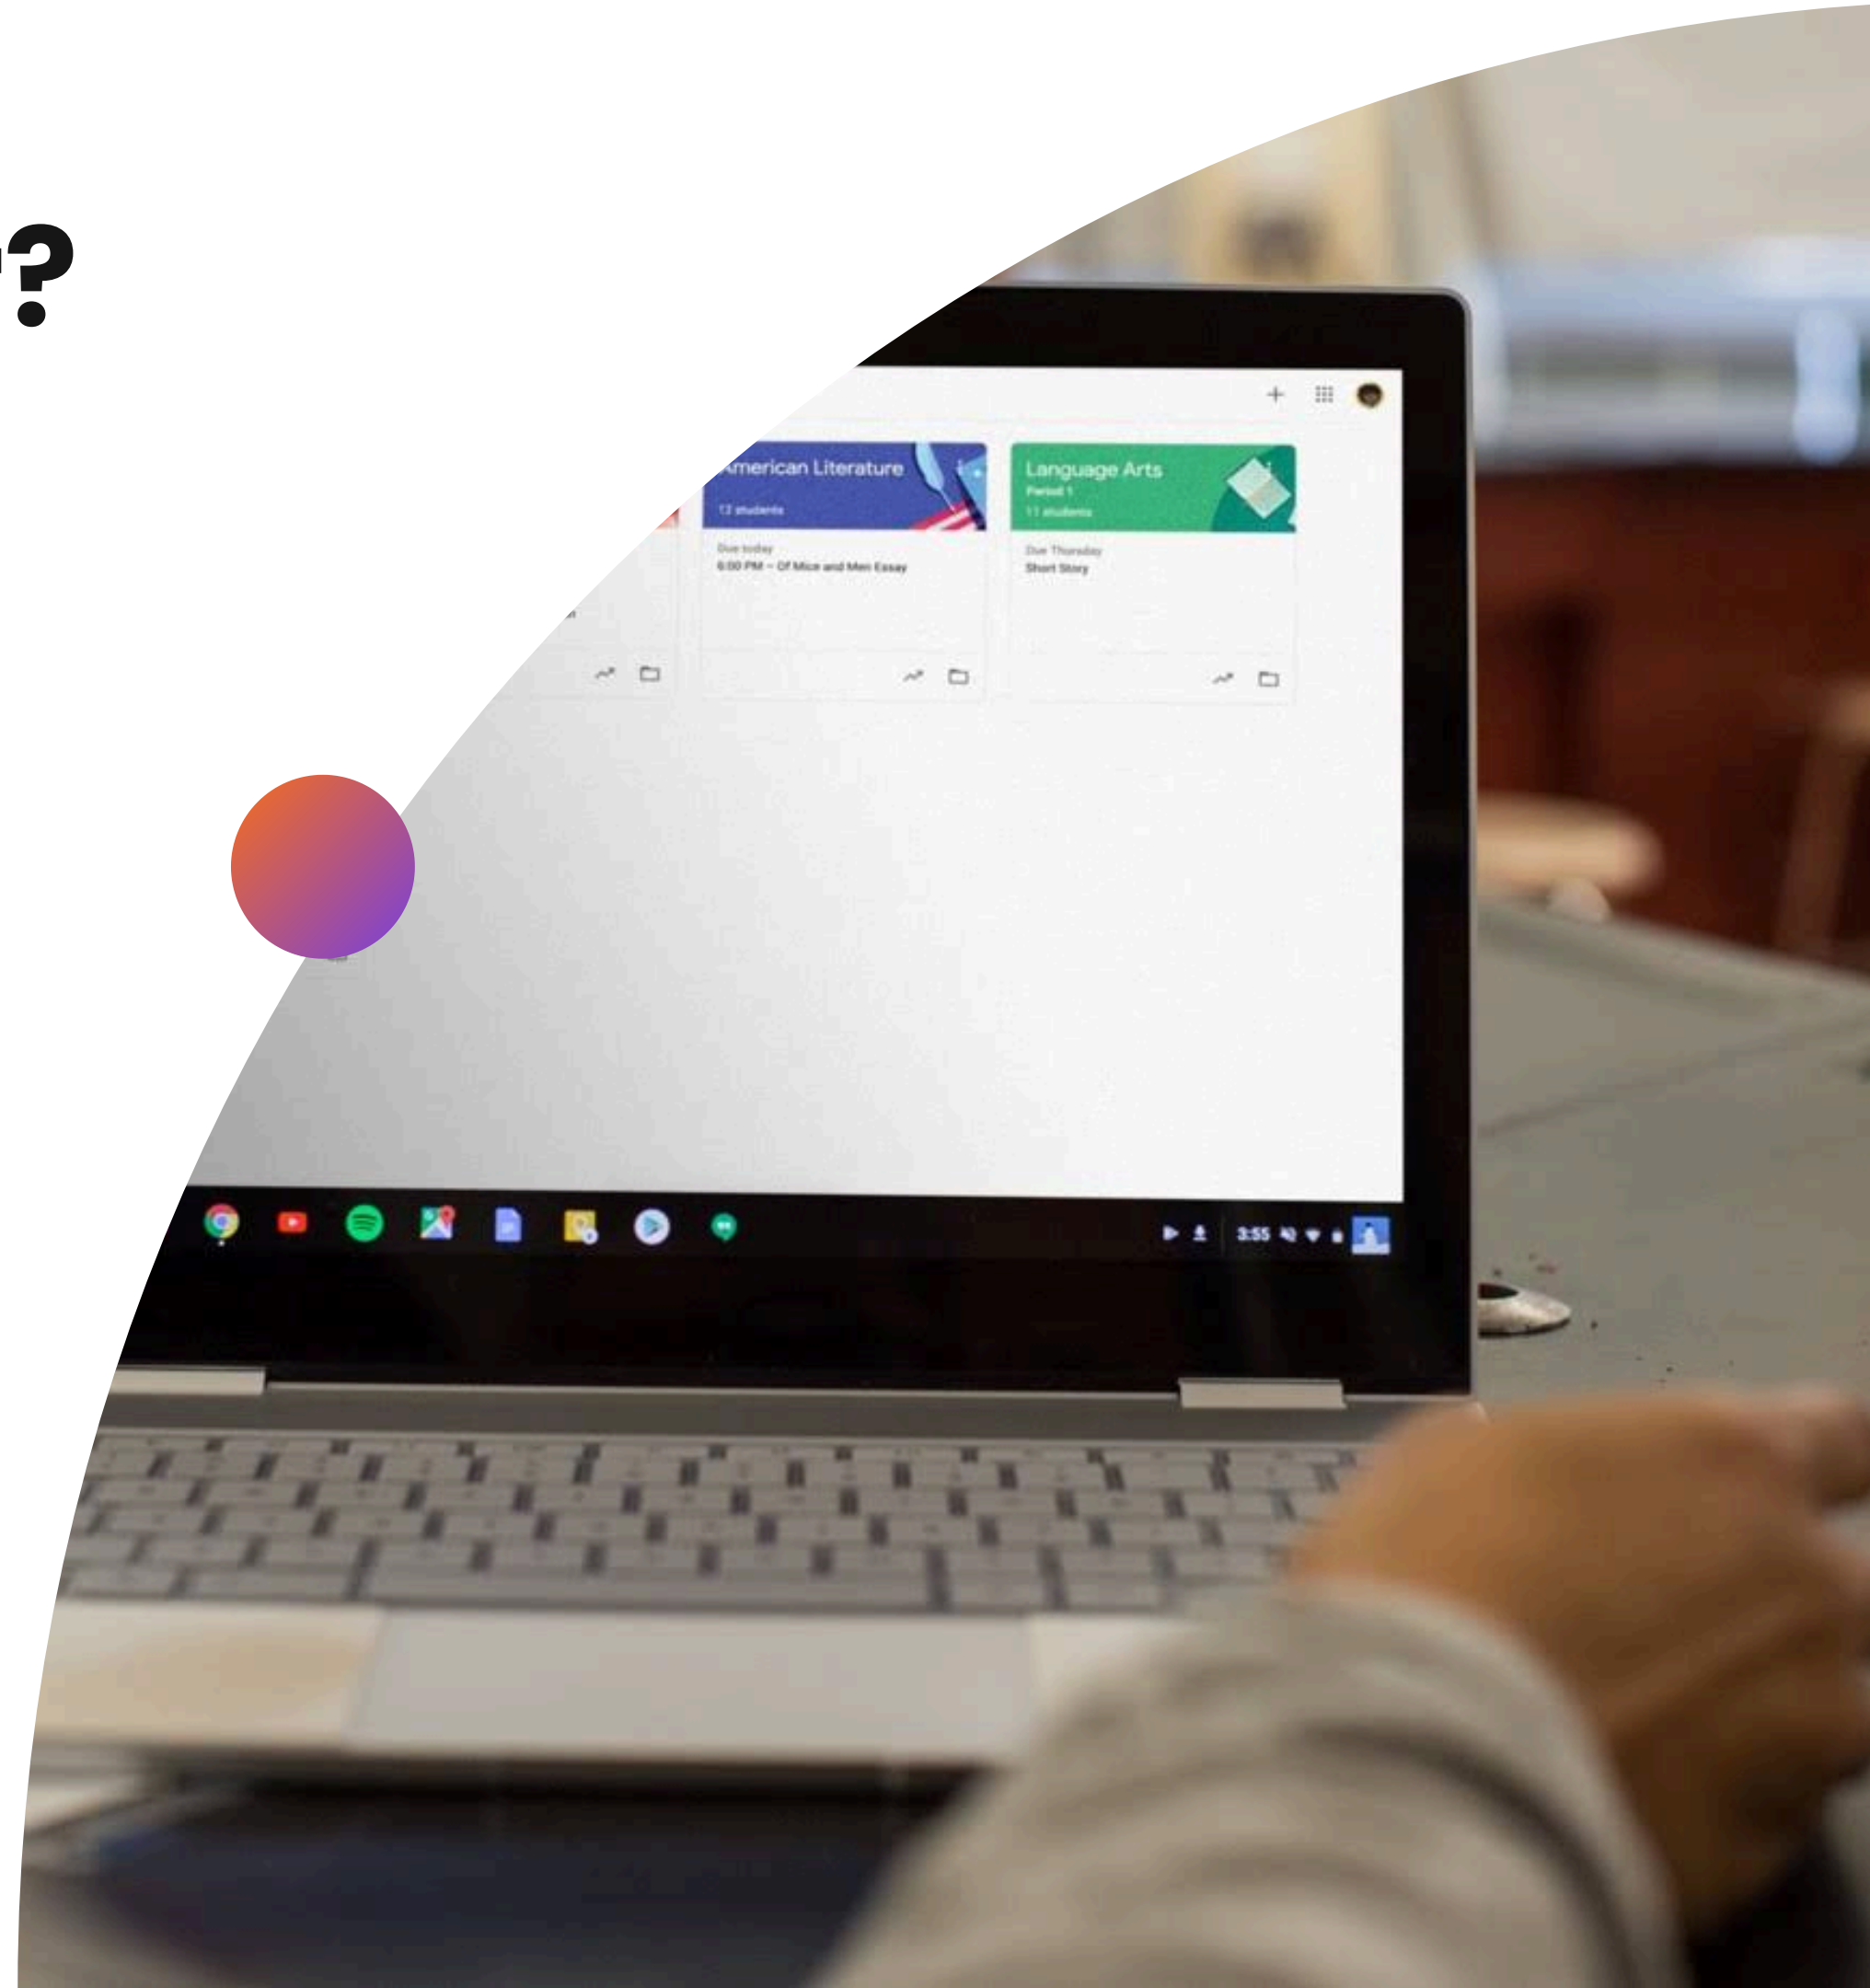

Rob Ruberry, Banksia Beach State School

"I've been using this great program since October '04 and I haven't used a projector since! I use it daily to teach a lesson from my computer, monitor students' progress, and shut down the lab at the end of the day. I've used other programs like AB Tutor and they don't compare in functionality, ease of use, and price. I appreciate the design purpose of AB Tutor for practical classroom usage and not for the purpose of making money. Thanks."

Bill J. Keylon, Lake City High School

Why Choose AB Tutor?

- Easy to use and easy to set-up
- Latest upgrades at no extra cost
- Can be used anywhere, anytime
- All Windows devices and Chromebooks supported
- Comprehensive Management: AB Tutor allows teachers and administrators to control, manage, safeguard, demonstrate, support, and collaborate with students effectively.
- User-Friendly: The software is designed to be easy to use, making it accessible for educators with varying levels of technical expertise.
- Cost-Effective: AB Tutor provides an economical solution for classroom management, making it a valuable investment for schools.
- Energy-Efficient: The software includes features that help in managing power usage, contributing to energy efficiency.

Introducing AB Cloud 10

Our most advanced software upgrade yet

CLOUD ADMIN INTERFACE

- Simple web interface
- Central storage of all event logs
- Improved security and stability
- Automatic updating of policies
- Web based Console and Clients
- Multiple tutor and administrative logins
- Central storage of policies

COMPUTER MONITORING

- Multiple tutors can monitor student
- Real-time remote screen watch
- Re-sizable thumbnail views
- Monitor and log student activity
- Monitor open applications
- Take snapshots of student activity
- Logs stored centrally
- Identify what the student is working on

APPLICATION AND TAB CONTROL

- Lock the screen with a custom message or web page option
- Limit, block or close down applications or tabs
- Launch applications or tabs remotely
- At a glance, see apps and tabs students have running
- Close inappropriate apps or tabs immediately
- Show currently active apps or tabs

EASE OF USE

- Quick, intuitive installation
- Intuitive Web based Tutor Console

MICROSOFT INTEGRATION

- Sign in using Entra ID / Active Directory
- Import tutors from Entra ID and assign granular permissions for access
- Automatic deployment of client extension via Intune
- Student group import from Entra ID

GOOGLE INTEGRATION

- Sign in using Google credentials
- Import tutors from Google Workspace and assign granular permissions for access
- Automatic deployment of client extension via Google Workspace
- Student group import from Google Classroom

REMOTE CONTROL

- Lock remote screen, keyboard and mouse
- Take over remote mouse and keyboard
- Share control of applications with student
- Launch and close down applications remotely
- Automatically launch websites or open files remotely
- Set policy to immediately block application

MANAGE TUTORS

- Web interface for managing tutors, admin and students
- Set the level of access for individual teachers or tutors and admins
- Restrict console use to specific groups

MANAGE GROUPS OF USERS AND DEVICES

- Create defined classroom groups of users and devices
- Automatically apply different policies to different groups
- Import and update groups of users from Google Classroom or Microsoft Entra
- Manage multiple groups

INTERNET MONITORING & ESAFETY

- Limit web browsing to specified sites
- Block and Allow specific sites
- Filter by URL with wildcards
- Notifications when students visit specified sites
- See active webpage at a glance

KEYWORD VIOLATION

- Get notification when specific keywords are typed
- Trigger a screenshot upon violation
- Vew all violations - screenshots, user details and context
- Cloud storage for all events
- Copy and paste lists of keywords from any source

COST EFFECTIVE

- Automatically power off all computers at a designated time in accordance with your school's energy conservation guidelines
- Cloud based solutions eliminate the need for schools to invest in expensive servers
- Annual subscription = manageable expenses

CLASSROOM MANAGEMENT

- Remote logoff and shutdown
- Schedule remote shutdown
- Mute computers

COMMUNICATION

- Individual and group text chat client
- Peer to peer collaboration - text chat with tutor supervision
- Broadcast message pop ups

PRIVACY POLICY

- Policy to prevent client being watched
- Prevents event logging
- Enforces policies without violation logging
- Prevents key word logging

DEMO AND SHARE
